From: Andre Reiman
Subject: Labeling

I spoke to Rand Sherif Friday evening concerning labeling for EEC duty free and for Africa.

Rand said that he had received a call from one of his opposite numbers, indicating that, inasmuch as we were "unavailable" for today's meeting, another meeting had been scheduled for September 23. Rand said that he was concerned that waiting until then would cause operational problems in respect of the labeling for Africa.

I explained to Rand that there apparently had been some misunderstanding, and that the issue was not one of unavailability, but rather that it was my view that there had been a sufficient number of meetings, and there really was at this point nothing further to discuss. We had consulted, and now it was time to go forward.

Rand said that this message did not appear to have gotten through. I agreed with Rand that Hugh and I would call into the meeting being held today at the TDC in London, and make clear the following:

1. We did not see the utility in any additional meetings.
2. We have to move forward.
3. If consultations are desired, we are available in our offices.

Andy
